Incredibox

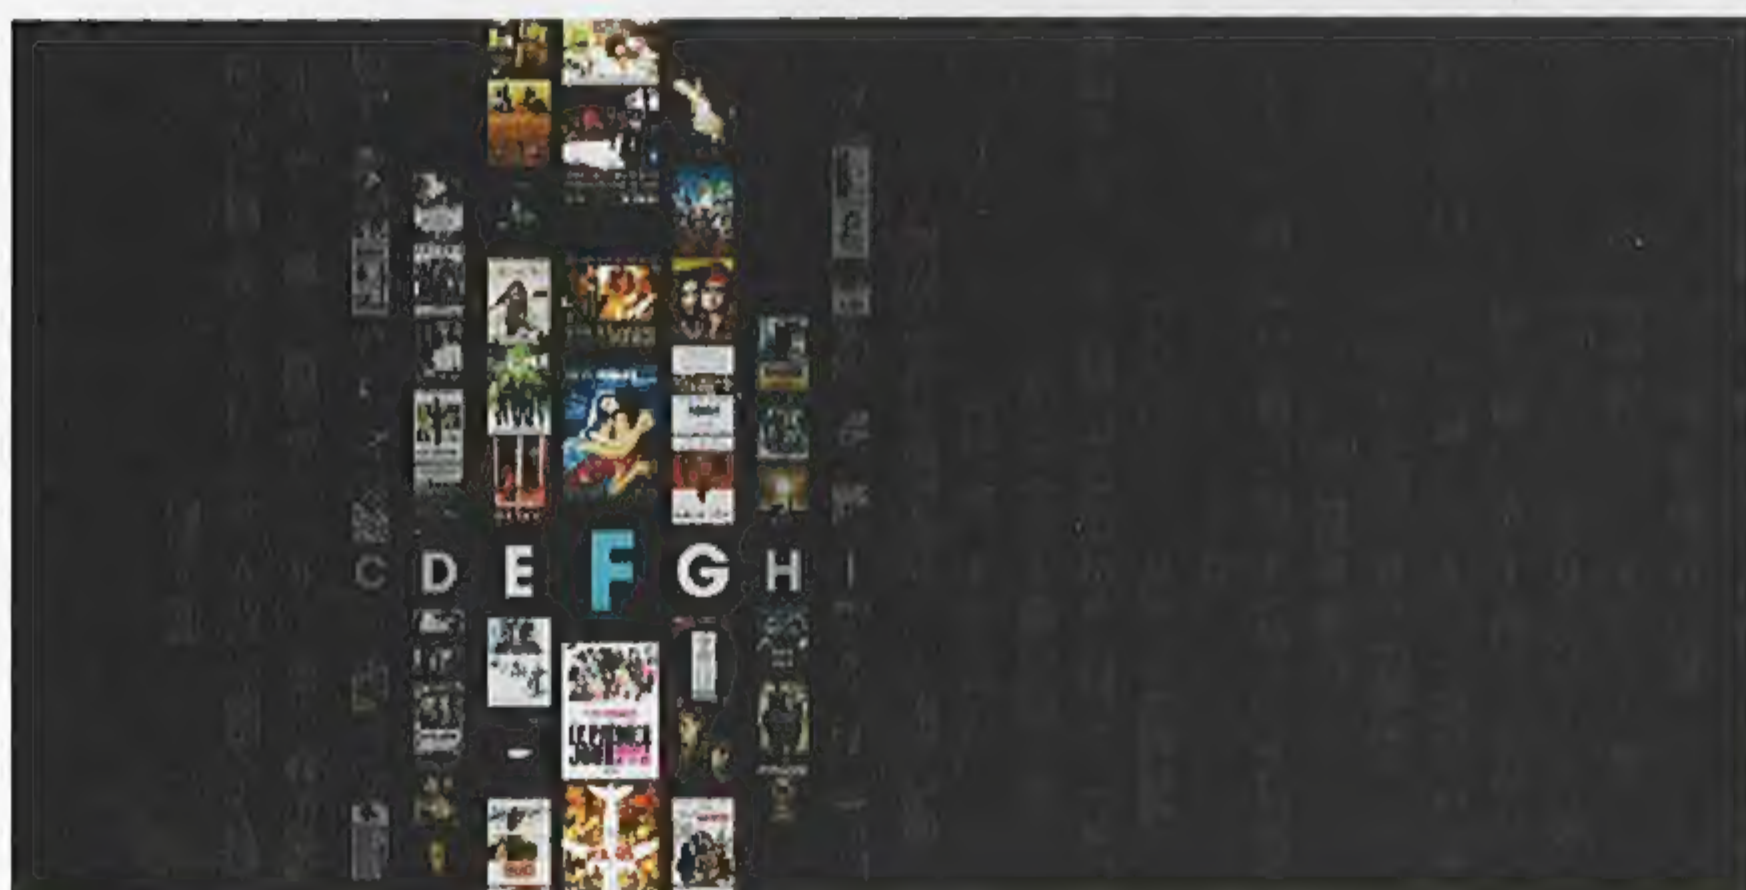

This funny website is an application that enables you to discover the musical world of "Incredibox", offering a wide range of human beatbox sounds! The user can experiment using different sounds to create unique music and sound effects.

SAAB – Change Perspective

SAAB is a creatively designed website that looks at things from a different angle, in order to build a brighter future. The website states if individuals change their perspective, they will have a better attitude towards the environment. Basically, it shows how cars can be built in a better way and includes a comparison between the past, present, and the future in terms of driving, fuels, safety, and power.
